

125 years.
The original.
MAUSER 98.

One rifle.
25 masterpieces.

The MAUSER 98 action is regarded as
the forefather of all modern bolt action
rifles. Built in the millions, copied in
the thousands, never matched.

We have had the original for 125 years.

A fact we want to celebrate!

DAS ORIGINAL

Built for eternity.

It evokes nostalgia for the old days and yet it is a milestone of modern firearms technology: the anniversary edition of the MAUSER 98, limited to 25 pieces.

The style of classic safari rifles from times past inspired our master gunsmiths to create an exclusive anniversary edition of the original MAUSER 98. The action, bolt handle ball, trigger guard, pistol grip cap and magazine base are colour case hardened and, together with gold damascening, English ornaments and an exquisite wood grade 8 stock with a red recoil pad, give these masterpieces a truly unique look. Each of the anniversary 98s is one of a kind.

Colour case hardening with English scroll

Bolt handle ball with colour case hardening, fish scale checkering and gold inlays

Engraved, gold-inlaid Original MAUSER logo

Colour-case hardened trigger guard with the number of the anniversary model

DAS ORIGINAL

Unique for eternity.

These unique rifles are available in a standard version and a magnum version. Details of the firearms and the calibre options are listed in the table below. More information at mauser.com or from your MAUSER dealer.

RRP: 35,125 EUR
